

2024

To Whom It May Concern:

Subject: LEED Version 4.1 Building Design + Construction (BD+C)  
Category: MR Credit: Sourcing of Raw Materials

Below is the LEED Credit information for the various Argos products manufactured at our Martinsburg, West Virginia plant.

**Martinsburg Plant at 1826 S. Queen Street, Martinsburg, WV 25401**

- Martinsburg EcoStrong PLC Type IL, ASTM C595, contains **5.6%** pre-consumer material.
- Martinsburg Masonry S Cements, ASTM C91 contains **3.3%** pre-consumer material.
- Martinsburg Masonry N Cements, ASTM C91 contains **3.3%** pre-consumer material.
- Martinsburg Masonry M Cement, ASTM C91 contains **3.3%** pre-consumer material.
- Martinsburg Mortar Cement (Superbond™), ASTM C1329 contains **3.3%** pre-consumer material.

Per LEED V4.1 (BD+C); The formula for determination of recycled content is calculated as follows:

$$[% \text{ Pre-Consumer} * 50\%] + [% \text{ Post Consumer} * 100\%] * \text{Cost of Material}$$

**Credit achievement calculation information:**

These products are manufactured at 1826 S. Queen Street, Martinsburg, WV 25401. Utilize this address to determine sourcing distance from project site.
